# I. Staff Accounts

## 1. Introduction

This feature is created specially for studio owners, giving them the possibility to add sub accounts of the main studio account. In the situation where, they don't want to share certain information with all the staff, this feature allows them to limit the access to certain pages from Studio Manager V2.

## 1.1. Create Staff Accounts

Step 1: Go to Menu → My Account → Staff Accounts → click on “New Account” button.

The screenshot shows the 'My account' dashboard with a sidebar menu on the left and a main content area on the right. The sidebar menu includes 'Personal information', 'Staff accounts', 'Connection history', 'List of your licenses', 'Settings', and 'Security'. The 'Staff accounts' menu item is highlighted with a red circle and a 'Click' label. The main content area features a 'New account' button with a red circle and a 'Click' label, and a table listing existing staff accounts.

Step 3: Direct access to pages : Activate/Deactivate where this sub-account should have access ( Model and New Model , Messaging , Earnings , My Account , Payment Settings )

The screenshot displays a two-column form for creating a staff account. The left column, titled "Account information", contains fields for Nickname (Alexatest1), Real name (Alexandra B), and Email (alexandra@...), along with a checked "Login enabled" option. The right column, titled "Direct access to pages", features a list of five items, each with a checked checkbox: "Model and new Model", "Messaging", "Earnings", "My account", and "Payment settings". A red box highlights this list, with red arrows pointing to each item. At the bottom left, there are "Cancel" and "Save and create" buttons, with the latter highlighted in yellow.

## 1.2. Manage Accesses

The sub-account holder can explore, make changes, only the pages where the studio manager gave the access.

Meaning only on the pages that are checked in the section “Direct access to pages”.

### How to activate/deactivate accesses to pages:

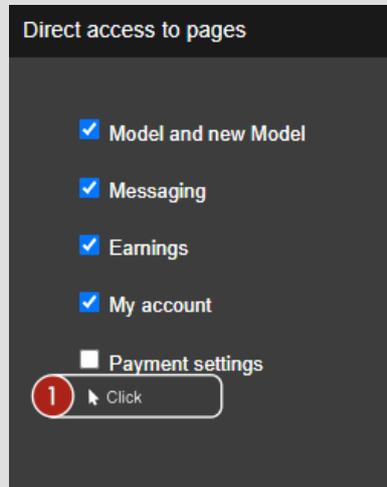

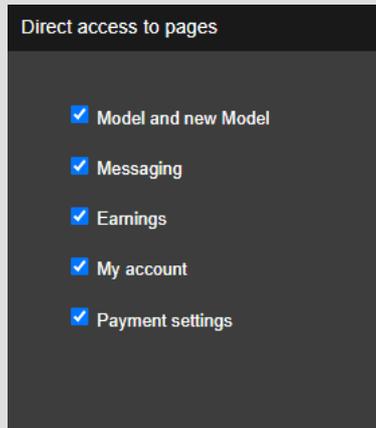

Step 1: Click on the sub account's nickname for which one you want to change access

**We recommend that you only grant permission to one trusted person within your studio to access the payments section, or for maximum security, do not grant permission to anyone.**

The screenshot displays the user management interface for XLoveCam.com. On the left is a dark sidebar with navigation options: Home, New Model, Model, Messaging, Earnings, My account, Payment settings, and Latest News. The main content area is divided into two panels. The left panel, titled "Account information", contains fields for Nickname (testStaffAccount), Real name (Real Name of the Admin), and Email (admin@mail.com). There is a checked checkbox for "Login enabled" and a "Reset password" button. The right panel, titled "Direct access to pages", lists five permissions, each with a checked checkbox: "Model and new Model", "Messaging", "Earnings", "My account", and "Payment settings". At the bottom of the main area are "Cancel" and "Save" buttons. Red arrows point from the "New Model" and "Model" menu items to the "Real name" field, and from the "Earnings" menu item to the "Payment settings" checkbox. Another red arrow points from the "Payment settings" menu item to the "Save" button.

## 1.2. Manage Accesses

The “Security” page in the list of accesses for sub account doesn’t exists.

If we try to access it, we receive an error message , and it is a normal behavior , as the sub account has no access to it.

### 1.3. Communication of login details

The Staff user should receive from studio manager the login URL, nickname and password, to be able to log into the sub-account. These are available to be seen right after the creation of the staff account. We recommend to store these credentials in a dedicated document.

**Includes : Your sales , Statements , Annual sales report , Daily Top 5 , Daily Top 5 special new models , Monthly Top 5 VR , Monthly special Referral TOP 5.**

## 2.1. Earnings Zone

### 2.1.1. Your Sales

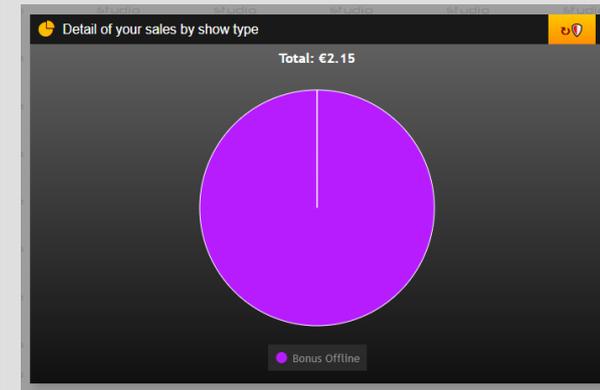

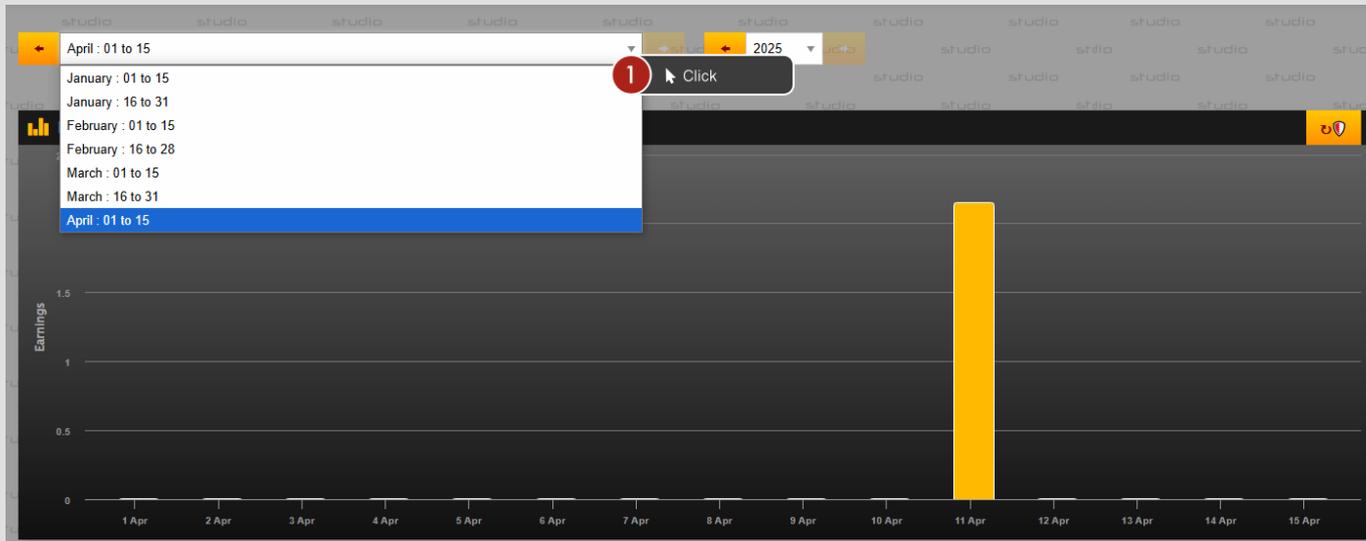

Access “Your Sales” from Menu → Earnings → Your Sales

On the first part of “Your sales” page , you can choose to view the total earnings per period.  
The month is split in two periods : 1- 15 and 16 – 28/30/31 depending on the month.

The graphic offers you an overview on everyday’s earnings.

The chart from the second picture, offers you an overview on sales by show type ( bonuses , private shows , live actions etc ).

In the first table we have “**Summary**” which is a summary of your total earnings per period.

Total sales amount = Total gross sales

Amount received after invoice = Total earnings after the commission has been deducted

Supply 180d = the 5% commission taken in case of future chargebacks

Credits and Earnings = The total amount that you will receive as payment on the selected payment option

Recovery 180d = If there were no chargebacks , the Supply will return to you after 180 days ( a small amount , each period)

Referral Commission = Earnings from Referral program

The second tabel contains a more detailed overview of sales by show type.

| Summary  |              | Detail of your sales by show type  |  |                      |  |                 |   |                 |       |

## 2.1.2. Statements

This warning message appears in the situation where, your earnings didn't reached the amount that you have set for **Billing Threshold**.

Billing Threshold can be changed at Payment Settings Page : <https://studio2.xlovecam.com/paymentssetting/>

### Billing threshold not met

Your current billing threshold is €124.00.

Your total sales for the current period is €80.19.

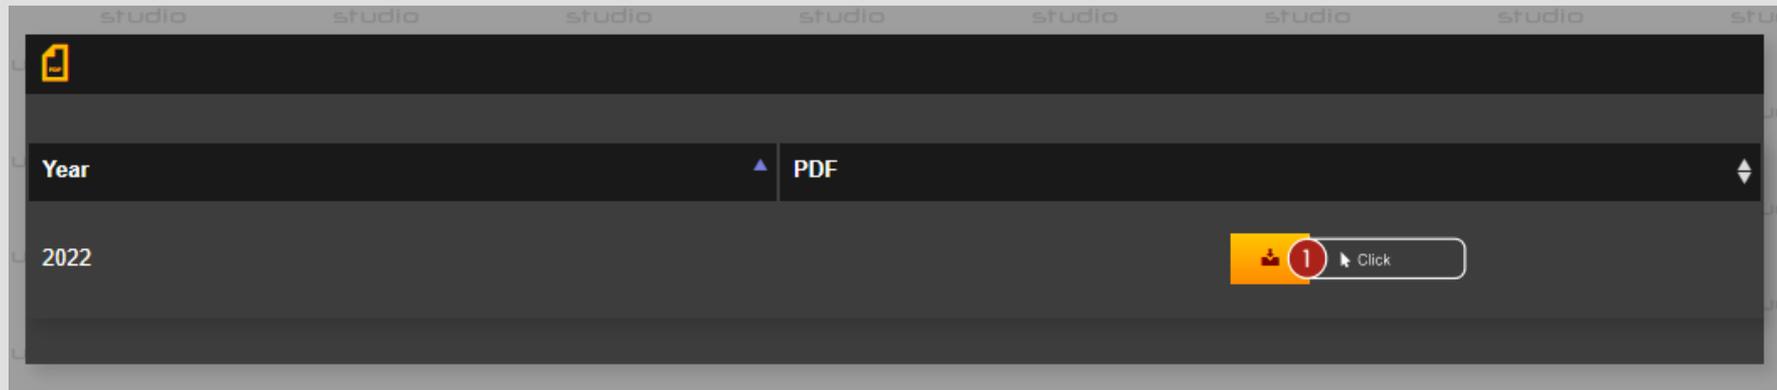

Payment will be made at the end of the current period if your total sales are above your billing threshold of €124.00.

If the billing threshold is not reached at the end of the period, your total sales will be carried over to the next period.

To change your billing threshold, [click here](#).

## 2.2. Secure your studio account

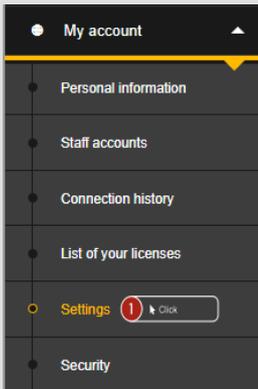

### 2.2.1 Set Additional Password

This feature allows you to add an additional password to protect sensitive pages such as invoicing, changing payment methods etc.

#### Why is important to set an additional password ?

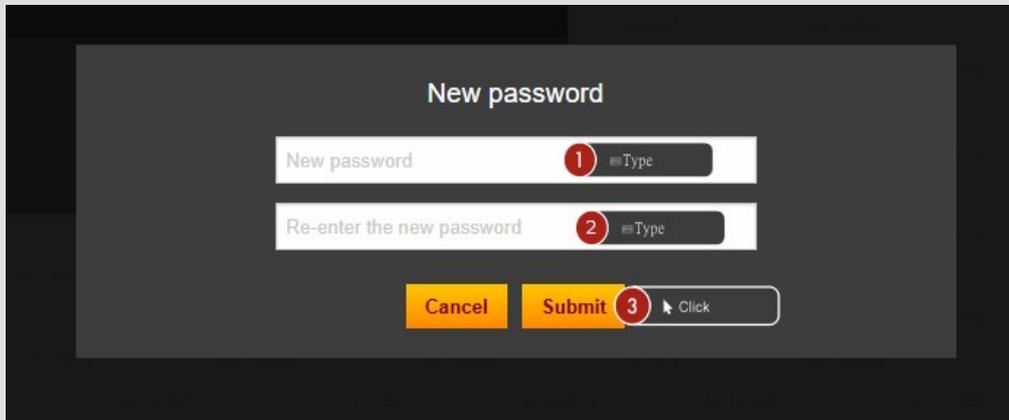

- Protects Financial Information : Payment settings often store sensitive data (bank account details). An extra password adds a layer of protection against unauthorized access.
- Prevents Unauthorized manipulations : Without this added security, someone gaining access to the main studio account (through a weak password or shared login) could change billing details.

Additional Password is like having a second lock on a safe ; you wouldn't want just anyone to open it, even if they could get inside the room.

To add an additional password is very simple , access Menu → My Account → Settings :  
<https://studio2.xlovecam.com/en/account/setting/>

- Enable the feature by switching it to “ON”
- Type new password (a strong one)
- Re-enter the new password
- Click on “Submit” button
- We recommend you not to share it with anyone

### 2.2.2. Change your Studio Account's password

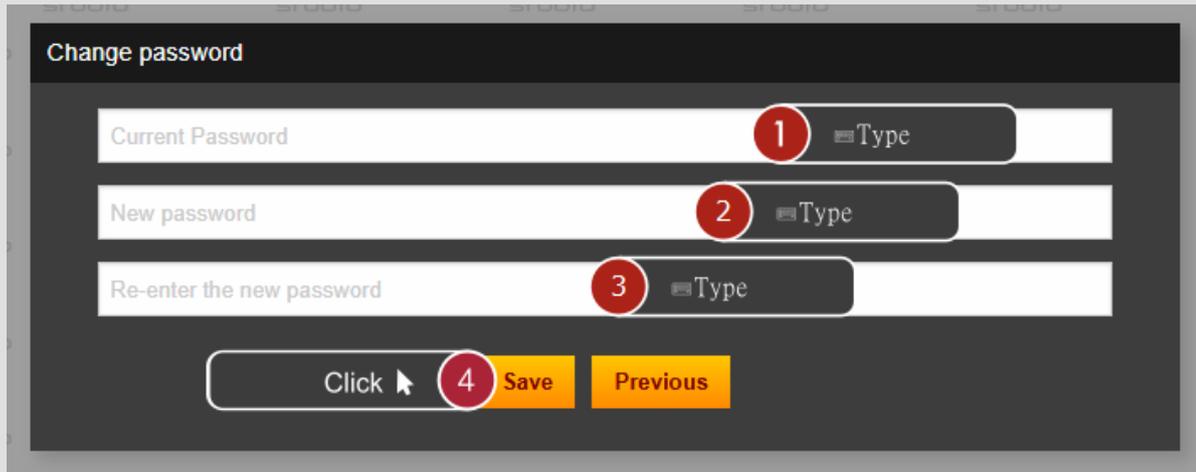

This feature allows you to change your studio account's password.

#### **Why is recommended to change, from time to time, an account's password?**

- Protects against undetected breaches : if someone gained access to your account, without your knowledge, changing the password from time to time can lock them out.
- Keeps your security fresh : regular password changes force you to rethink and to strengthen your login credentials, helping you to avoid weak or reused password.
- Protects against shared access : if you ever shared your password, for a short time, changing it later ensures that the other person can't keep accessing your account without your permission.

To change your studio account's password is very simple , access Menu → My Account → Settings : <https://studio2.xlovecam.com/en/account/security/>

- Click on **“Edit”** button
- Type your current studio account password
- Type new password ( a strong one)
- Re-enter the new password
- Click on **“Save”** button
- We recommend you not to share it with anyone

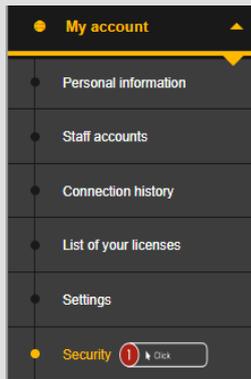

### 2.2.3. Two – Factor Authentication

**This feature allows you to add an extra security to your studio account, through Two-Factor Authentication.**

**Why is recommended to secure your account with 2FA ?**

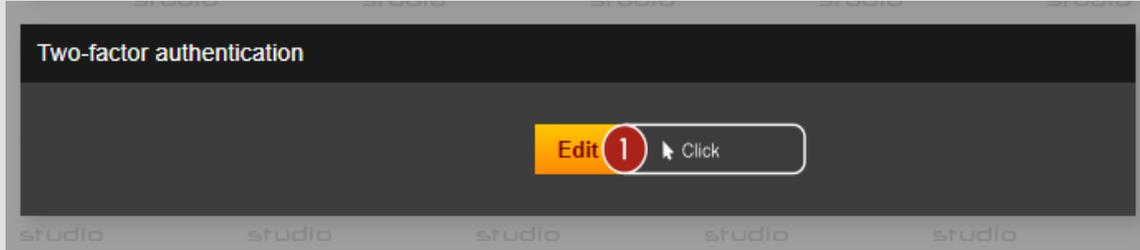

- Two-factor authentication (2FA) is great because it adds an extra layer of security to your account, making it much harder for hackers to access.
- Double protection: even if someone steals your password, they need a second piece of information (the code from your phone) to log in.
- Prevents unauthorized access: 2FA makes it way more difficult for a person to break into your account, especially from unfamiliar devices/locations.
- Protects sensitive information: 2FA helps keep your most valuable information safe.
- Blocks common attacks: protects against phishing, password leaks etc.
- Tranquility: You can feel more secure knowing that even if your password gets compromised/stolen, your account is still protected.

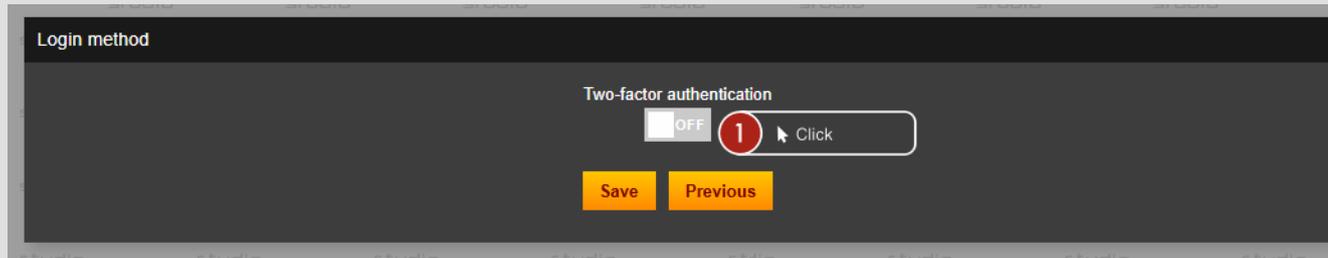

The procedure to add 2FA to your studio account is very simple.

Go to Menu → My Account → Security → Two-Factor authentication: <https://studio2.xlovecam.com/en/account/security/>

Click on “**Edit**” button

Enable the feature by switching the button to “ON”

At this point, you'll be asked to scan the QR code with an authenticator App or to copy and paste the secret key into your app.
