

## Technical Webinar 32

## Streaming using Mobile Devices

**Account log in**

You can stream from your mobile phone or your tablet, wherever you are, thanks to the streaming technology provided by our platform.

To stream live from home, all you need is an Internet connection with good speed.

You can sign in to your account, stream, and also send messages to customers and fans ...and many other options that will be presented during the webinar.

The streaming from mobile/tablets is available for Android (Chrome ) and IOS (Safari ) , exception for Huawei devices , unfortunately their system is not compatible.

To log in into your account is very simple , same as on desktop PC :

Copy and paste the connection link into the browser ( or simply click on it directly from the e-mail ) , enter your username and password and that's it !

### Manage Actions Panel

This is a group of interactive items that a customer can send to a model as a gift (Rose, teddy bear, diamond etc). The customer may ask for something in return (a kiss, a dance, etc.).

We also introduce the interactive toy actions, that allow you the customer to send a vibration to your smart sex toy (OhMiBod or other devices that vibrates on sound).

## Schedule :

As on desktop version , your schedule is automatically calculated , based on the last 45 days of online streaming.

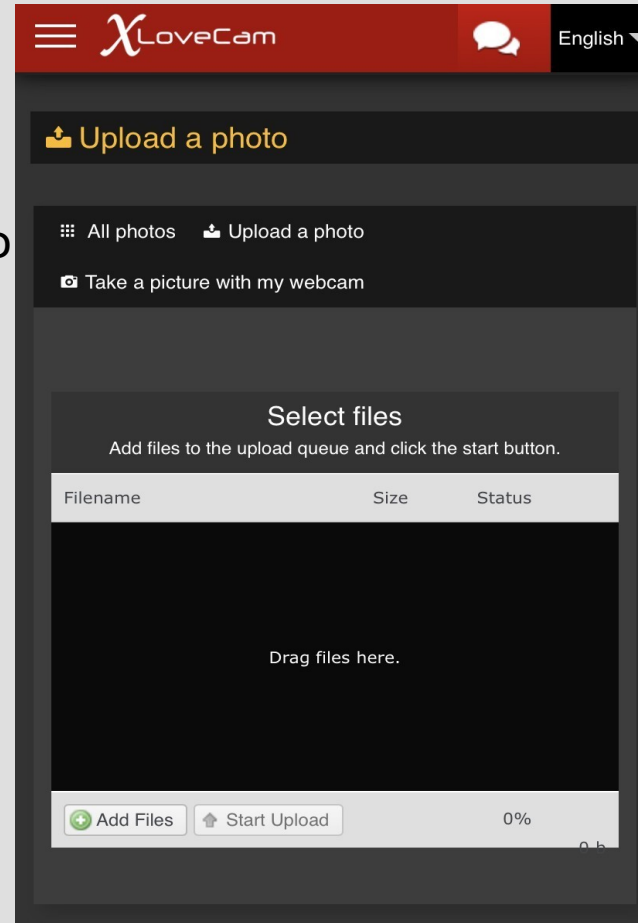

## Add photos

You can add photos directly from your phone or you can make one with your own camera. With a small mention for IOS Devices : the photos made with a IOS device , have the format HEIC , so you will have to convert first the photos with an online converter(directly from the phone, to JPG/JPEG format and then you can upload them on your profile.

← Upload a photo directly from your device

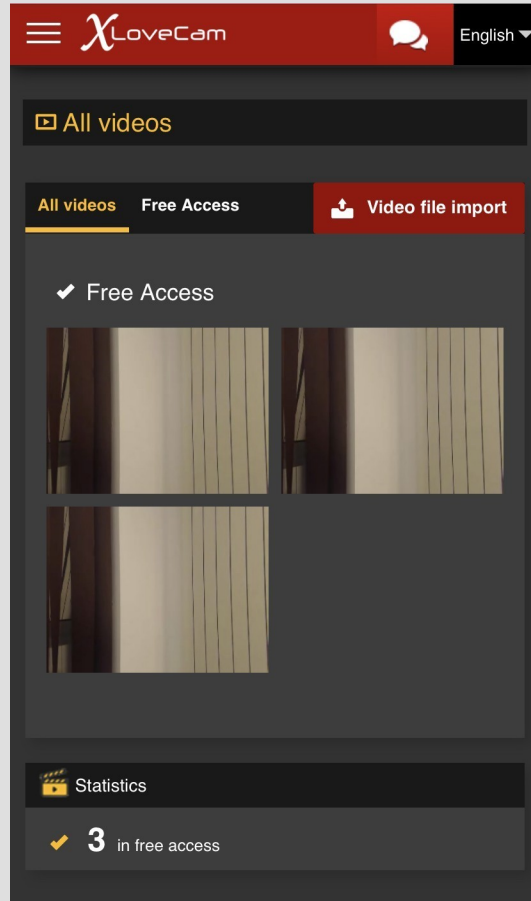

← Take a Picture with My webcam

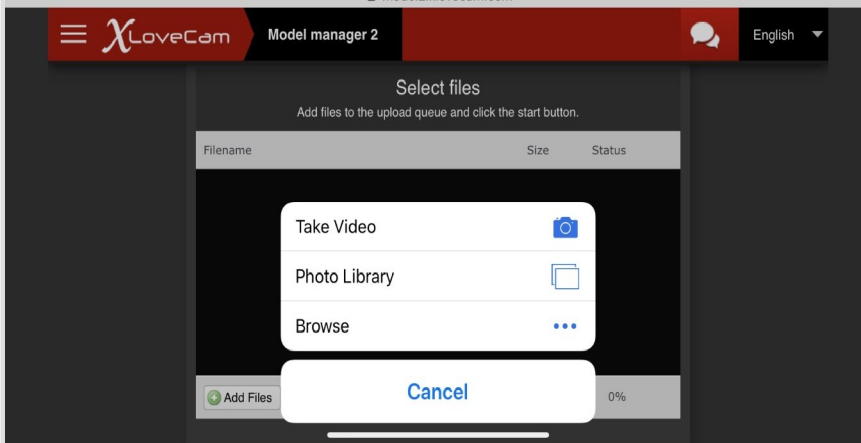

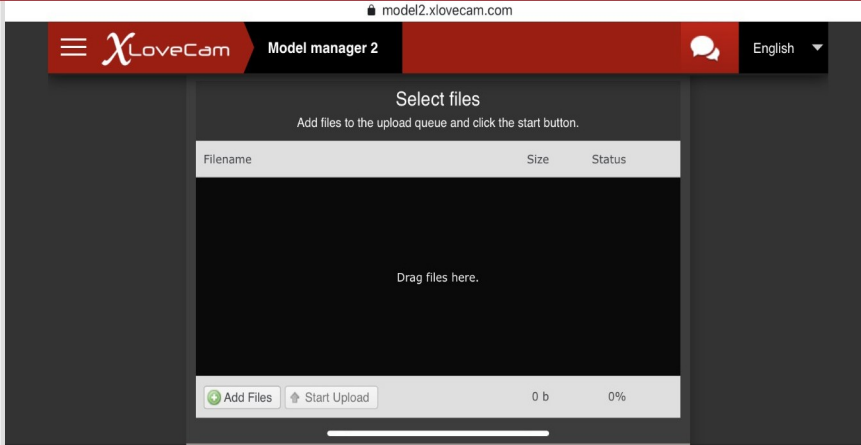

If you choose To upload Directly from device press on add files button

## Upload Videos

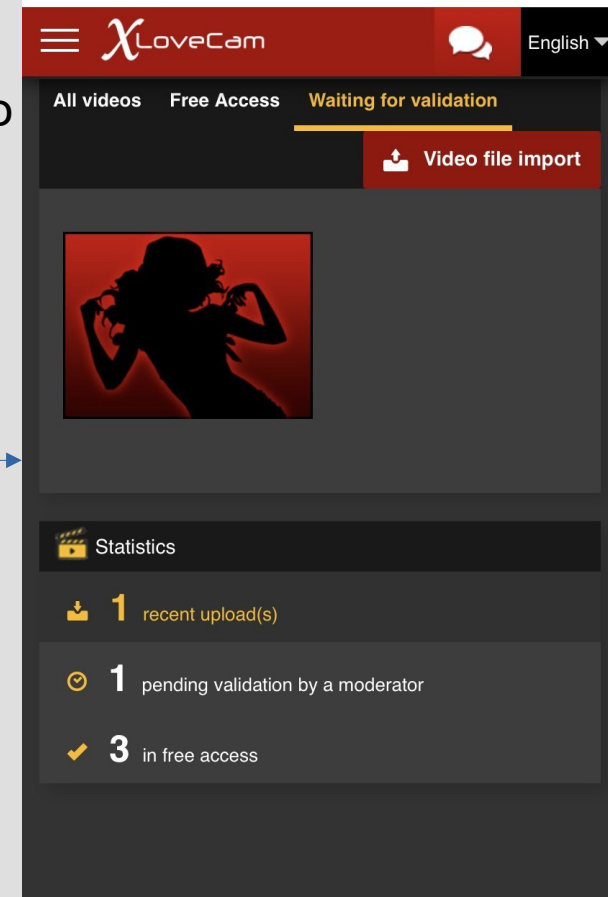

← You can upload a video directly from your device  
The file should not exceed 1.12 GB

← Click on Add Files Button to add the video From the device

The procedure is Same as on desktop version , after uploading the video it will ask you to add a title and then you have to wait for the conversion and for the approval from our team.

## Customer Monitoring

Same as on desktop version

Customer Monitoring is available On mobile version as well.

You may click on the user's nickname  
And you will find the informations  
that you need.

The screenshot displays the mobile interface for monitoring a user's activity. At the top, the XLoveCam logo and a language selector (English) are visible. The main header shows the user's nickname and total sales of 1.52 €. Below this, there are filters for 'Show stats' (Last 7 days) and a search bar.

The central part of the screen features a table with the following data:

| Customers     | Shows |     | Bonus  |     | Dat<br>Last at |
|---------------|-------|-----|--------|-----|----------------|
|               | Sales | No. | Sales  | No. |                |
| User Nickname | 1 €   | 1   | 0.52 € | 2   | 2020-0         |
|               | 0 €   | 0   | 0 €    | 0   | 2020-0         |
|               | 0 €   | 0   | 0 €    | 0   | 2020-0         |
|               | 0 €   | 0   | 0.05 € | 1   | 2020-0         |
|               | 0 €   | 0   | 0.26 € | 1   | 2020-0         |

Below the table, it indicates 'Showing 1 to 5 of 5 entries' and provides navigation for 'Previous' and 'Next'.

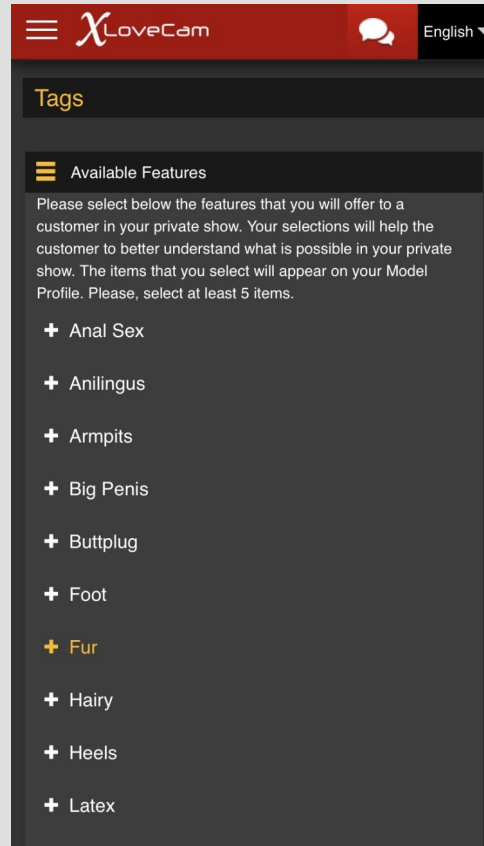

On the right side of the interface, there are summary statistics for different categories:

- Private Shows:** 1 show, last 2 days ago, total 1 €.
- Bonus:** 2 bonuses, last 2 days ago, total 0.52 €.
- VIP:** 0 months, total 0 €.
- Message:** 1 message, last 3 hours ago, with a 'Send a message' button.

At the bottom, there is an 'Internal notes' section with an 'Edit or Add' button and a text input field containing the note 'The boss'.

## Menu → Tags:

Here you can add the features that  
You will offer in your private show.

## Add title :

You can create  
A new title for your  
Room chat , or you  
Can select from the  
Previous that you  
Have created.

The image displays two screenshots of the XLoveCam mobile application interface, illustrating the process of adding a title to a chat room.

**Left Screenshot (Initial State):**

- Header:** XLoveCam logo, a chat icon, and a language dropdown set to "English".
- Current Room Info:** A box labeled "Current : 9476".
- Instructions:** "Explain in a few words what you are going to do in your online performance. This title must be in English and it will be displayed to clients when they join your chat. (Exclusively displayed on sex.cam at the moment)".
- Buttons:** "Please choose a title from the list" and "+ New title".
- Input Field:** A text box containing "I need your love , come join me in private".
- Action:** A yellow "Save" button.

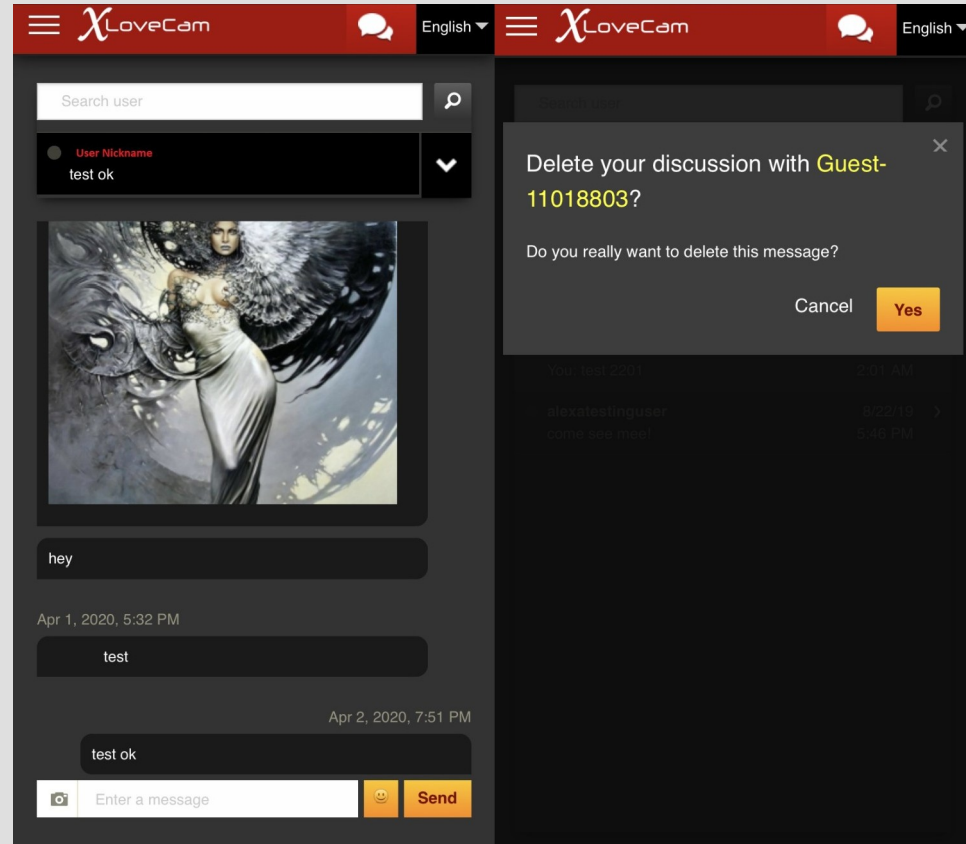

**Right Screenshot (After Saving):**

- Header:** XLoveCam logo, a chat icon, and a language dropdown set to "English".
- Current Room Info:** A box labeled "Current : 9476".
- Instructions:** "Explain in a few words what you are going to do in your performance. This title must be in English and it will be displayed to clients when they join your chat. (Exclusively displayed on sex.cam at the moment)".
- Buttons:** "Please choose a title from the list" and "+ New title".
- Input Field:** A text box containing "MY BABY YOU !!!!".
- Action:** A yellow "Save" button.
- Title List:** A scrollable list of previously created titles:
 

| Time created | Title                   |
|--------------|-------------------------|
|              | Hot and sexy today !!!  |
|              | bambam                  |
|              | bambam                  |
|              | <b>MY BABY YOU !!!!</b> |
|              | Test1711                |
|              | los 2411                |
|              | test2511                |

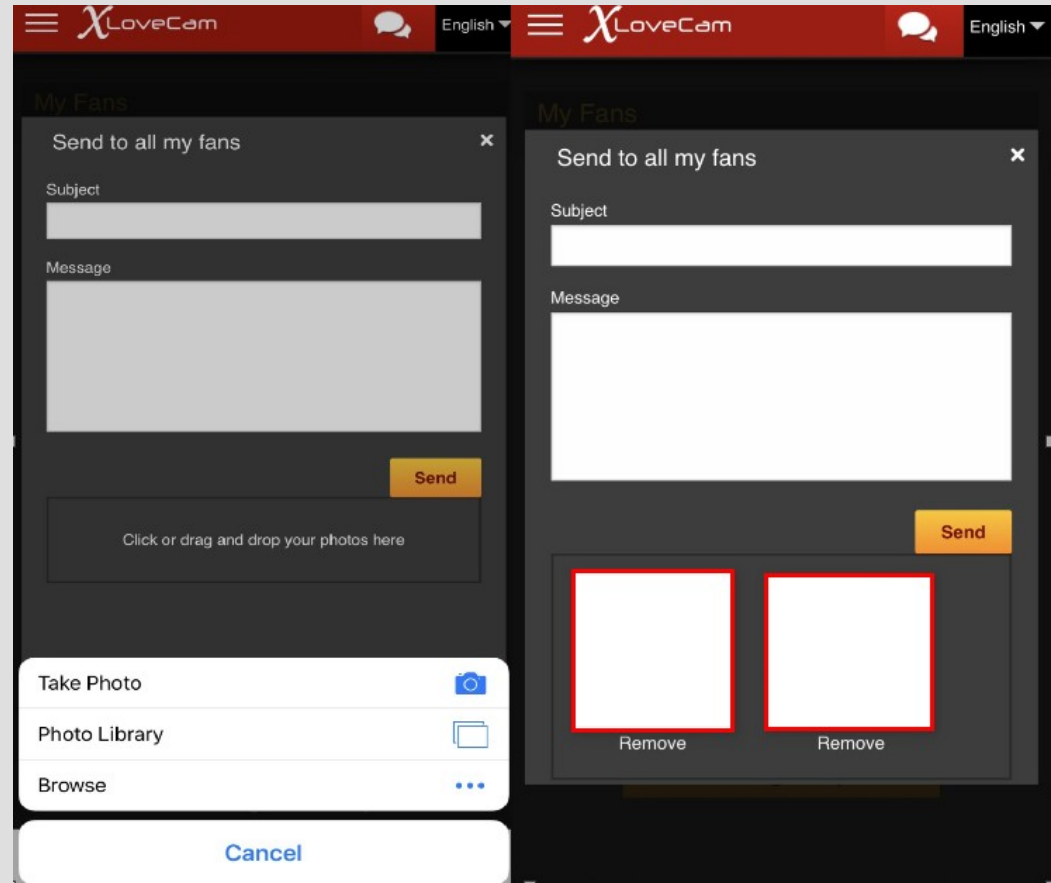

## Messaging :

You can send messages to the users, send them photos and delete messages.

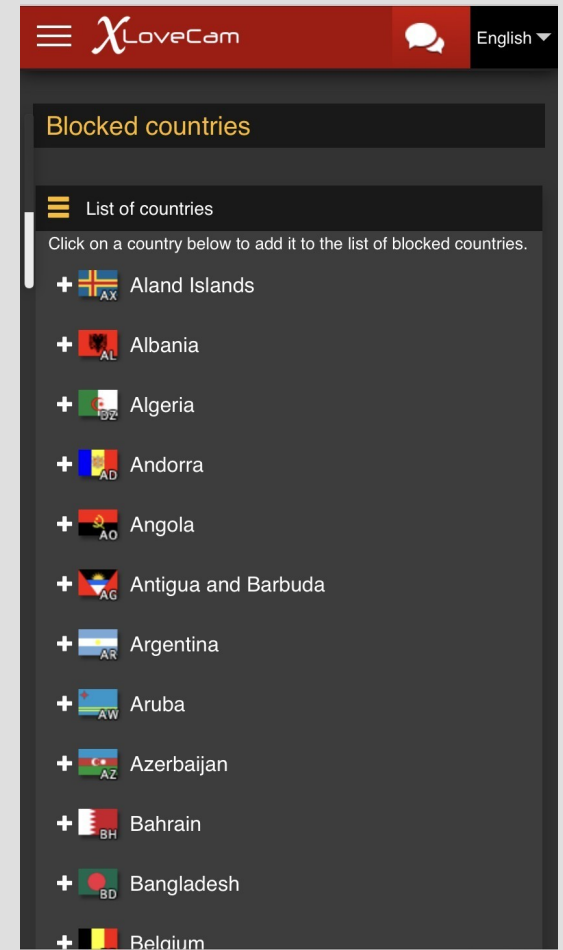

## Fan list messaging:

Do not forget about your fans!  
You can send 1 message per day  
and include 2 photos in the message.  
This helps you to keep in touch with  
all your fans.

## Blocking countries :

You do not wish to have users from 1 or more countries?  
No problem , you can block whatever country you wish.  
You just have to click on the “+” button .

The screenshot shows the XLoveCam.com website interface. At the top, there is a red navigation bar with the XLoveCam logo, a chat icon, and a language dropdown set to 'English'. Below this, a dark grey sidebar contains the 'Blocked countries' section. The section is titled 'Blocked countries' in yellow text. Underneath, there is a 'List of countries' header with a hamburger menu icon. A message reads: 'Click on a country below to add it to the list of blocked countries.' Below this message is a list of countries, each with a plus sign, a small flag icon, and the country name. The countries listed are: Aland Islands, Albania, Algeria, Andorra, Angola, Antigua and Barbuda, Argentina, Aruba, Azerbaijan, Bahrain, Bangladesh, and Belgium.

Blocked countries

## Live Parameters :

Here you can set your live show parameters :

**Online List Preview** means that the user can preview your live show

While he scrolls on your room chat from the online list models.

Stay in private show after last user you activate it online

If you wish to remain in private show , or you disable if you wish To be transferred in free chat after a private show with an user. **Viewing**

**mode for users in private show :**

Here you can change how you wish to view the users's window during private show.

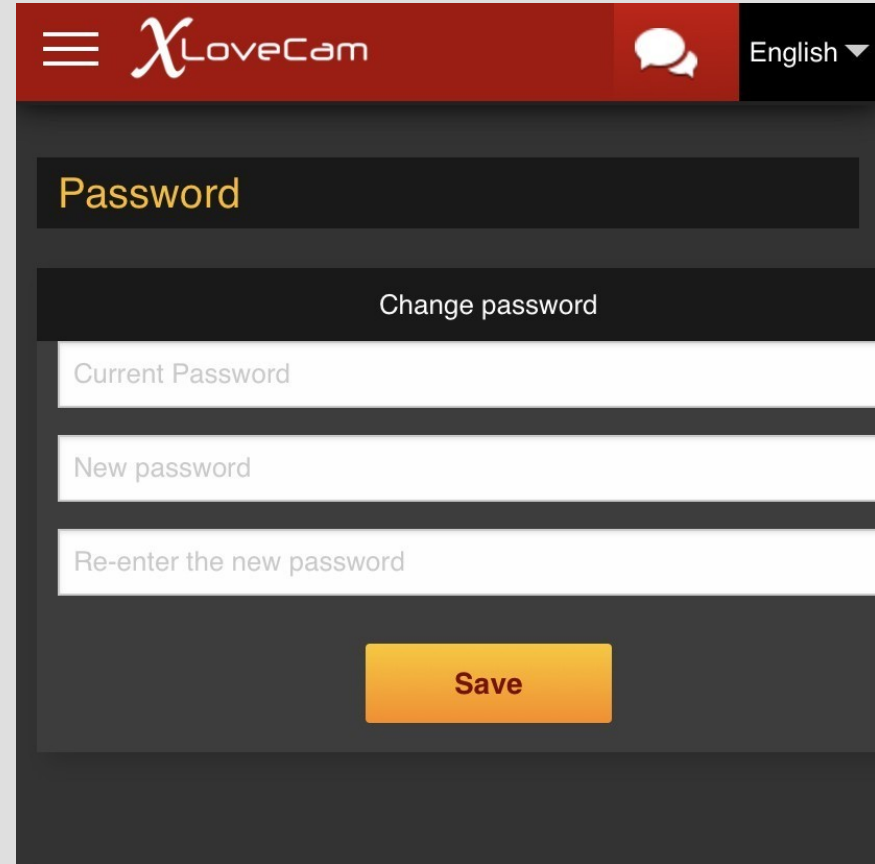

**Change webcam flash display mode:**

Here you shouldn't do other changes , and to let it on GPU.

The screenshot shows a settings panel with a dark background. At the top, there is a gear icon followed by the text "Live parameters". Below this, there are two toggle switches, both currently turned "ON" (indicated by a green square). The first toggle is labeled "Online List Preview" and the second is labeled "Stay in Private Show after last customer". Underneath these toggles, there are two dropdown menus. The first dropdown is titled "Viewing mode for customers in private show:" and has "Several webcams, shared chat" selected. The second dropdown is titled "Change Webcam Flash display mode:" and has "GPU" selected. At the bottom right of the panel, there is a prominent orange "Save" button.

## Password :

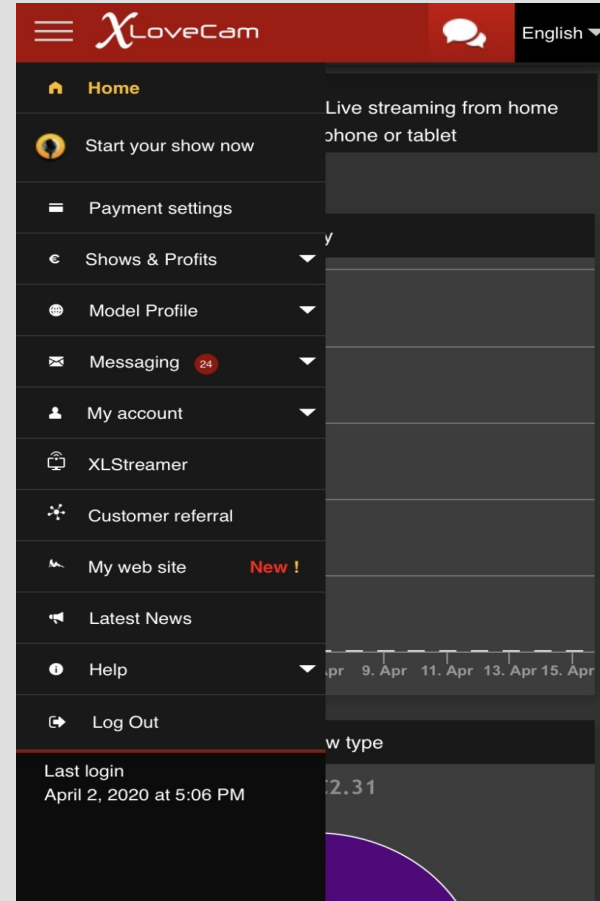

You can change the password directly from your account.

The screenshot shows the XLoveCam website's account settings page. At the top, there is a red navigation bar with a hamburger menu icon, the XLoveCam logo, a speech bubble icon, and a language dropdown menu set to "English". Below the navigation bar, the page title "Password" is displayed in yellow. The main content area is dark grey and contains a "Change password" button. Underneath, there are three white input fields: "Current Password", "New password", and "Re-enter the new password". At the bottom of the form is a yellow "Save" button.

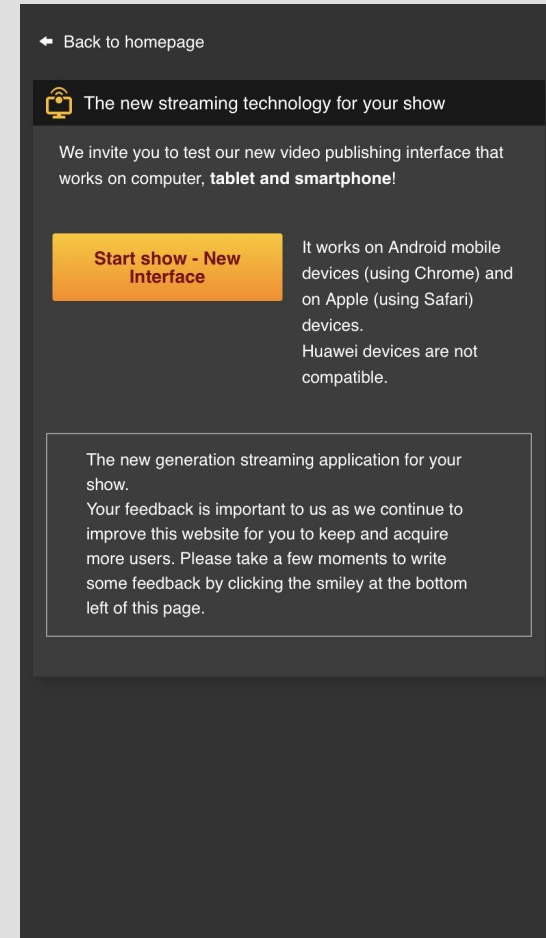

Start a show :

In the Menu , press on Start your show now.

Press on Start a show-New Interface.  
It works on Android Mobile Devices (Using Chrome ) and On Apple Devices (Using Safari).

**Huawei** devices are not compatible.

← Back to homepage

 The new streaming technology for your show

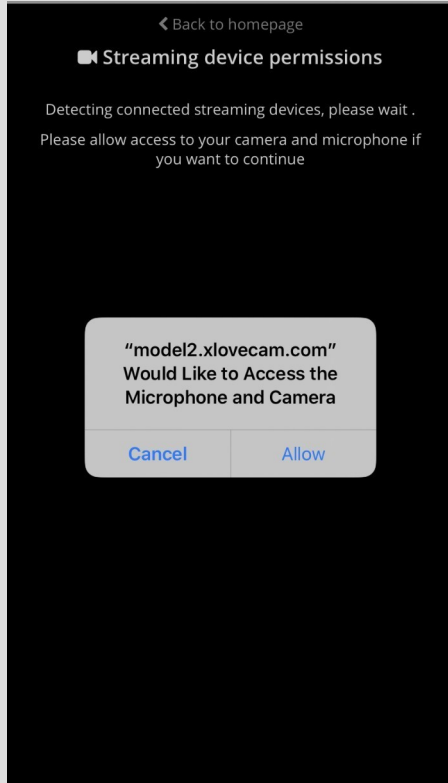

We invite you to test our new video publishing interface that works on computer, **tablet and smartphone!**

**Start show - New Interface**

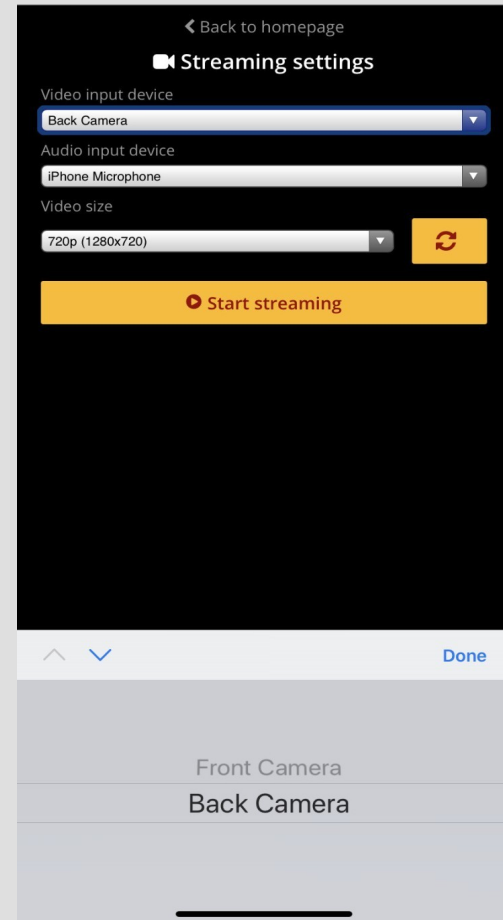

It works on Android mobile devices (using Chrome) and on Apple (using Safari) devices.  
Huawei devices are not compatible.

The new generation streaming application for your show.  
Your feedback is important to us as we continue to improve this website for you to keep and acquire more users. Please take a few moments to write some feedback by clicking the smiley at the bottom left of this page.

## Allow the browser to access your camera and microphone.

Choose Front Camera or Back Camera  
Microphone , and the Video Size  
(Resolution) .

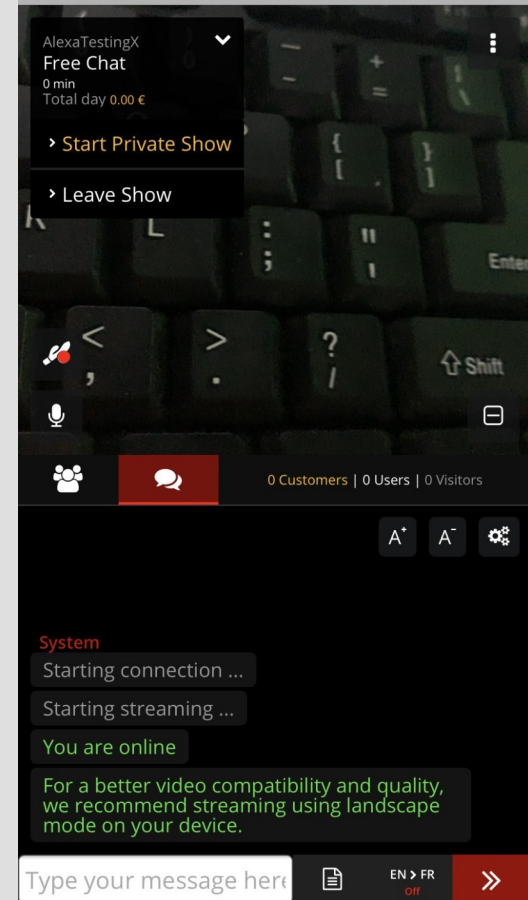

You have almost the same options as on desktop version.

You can Start Private Show.

You see the total minutes spent .

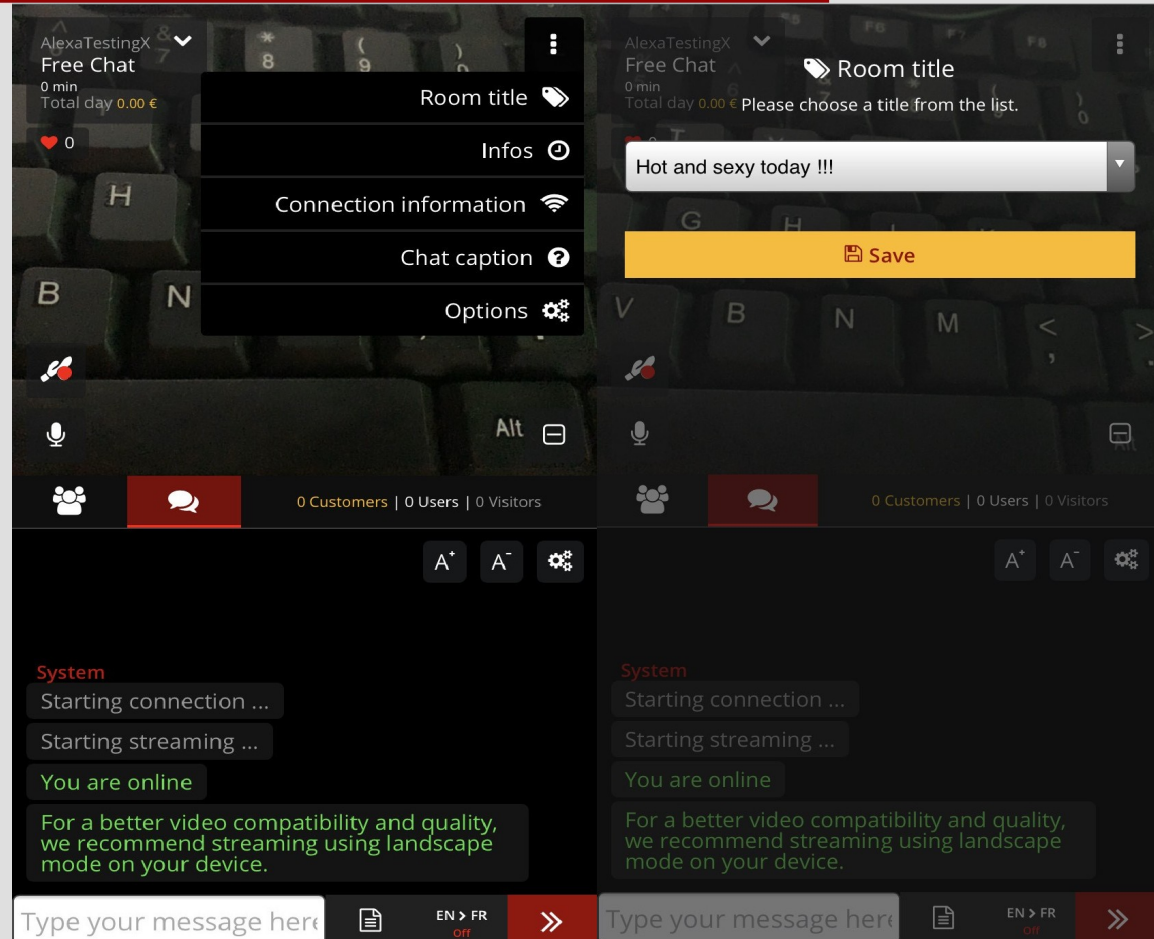

You can see total earnings during the day.

Number of Loves.

You will see 3 dots on the left side , that is the Options Menu.

You can add a room title, see informations about your current show  
 Connection information  
 Chat caption( explanation for the \$ icons that are near the user's nickname and more Options for the room chat.

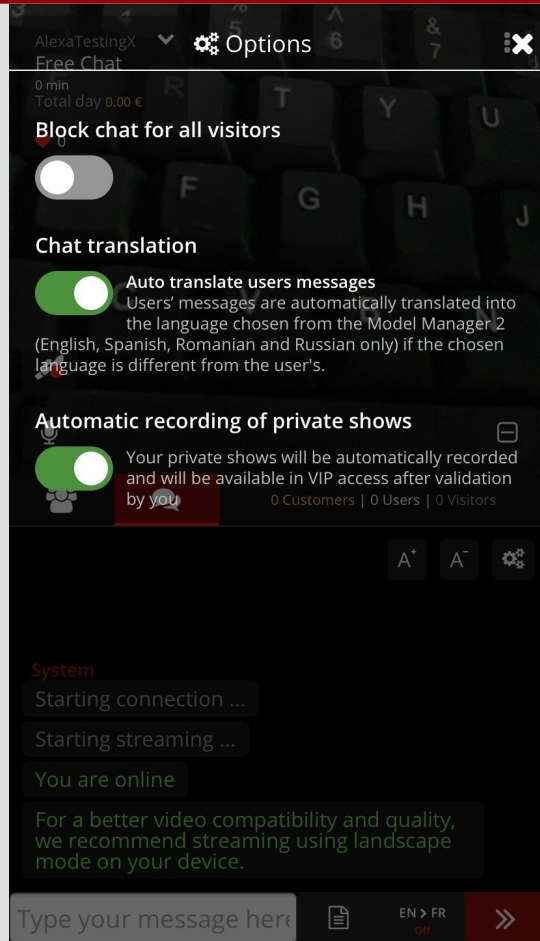

## Options Menu :

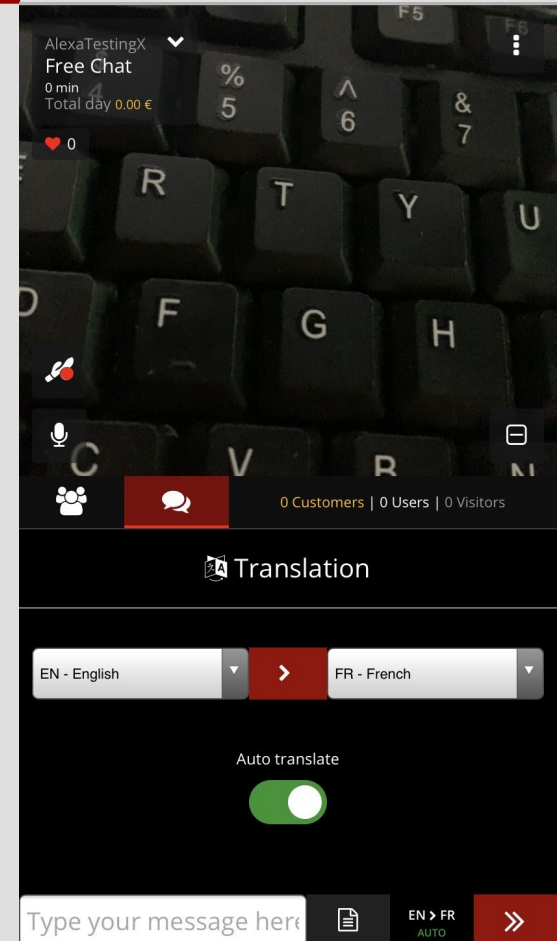

Block chat for all visitors.

Chat translation :  
Auto translate users messages.

Automatic recording of private shows.

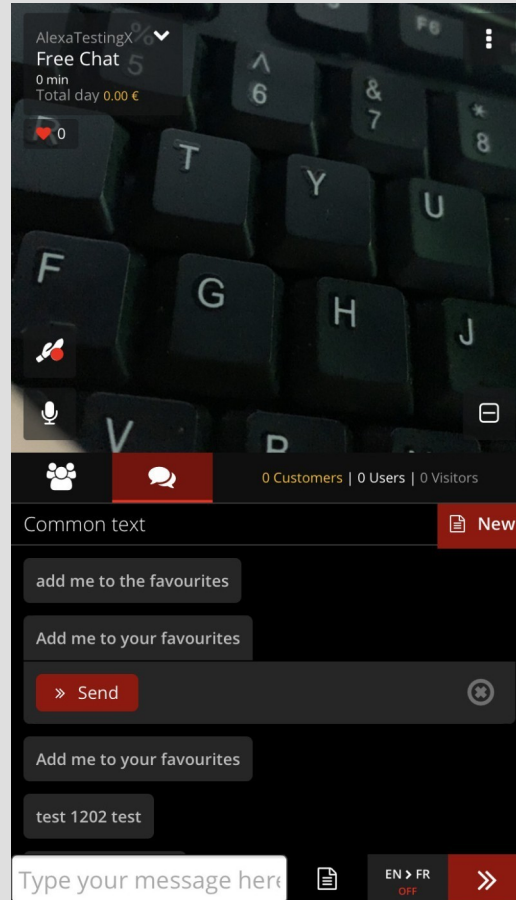

Auto translate available for your messages as well.

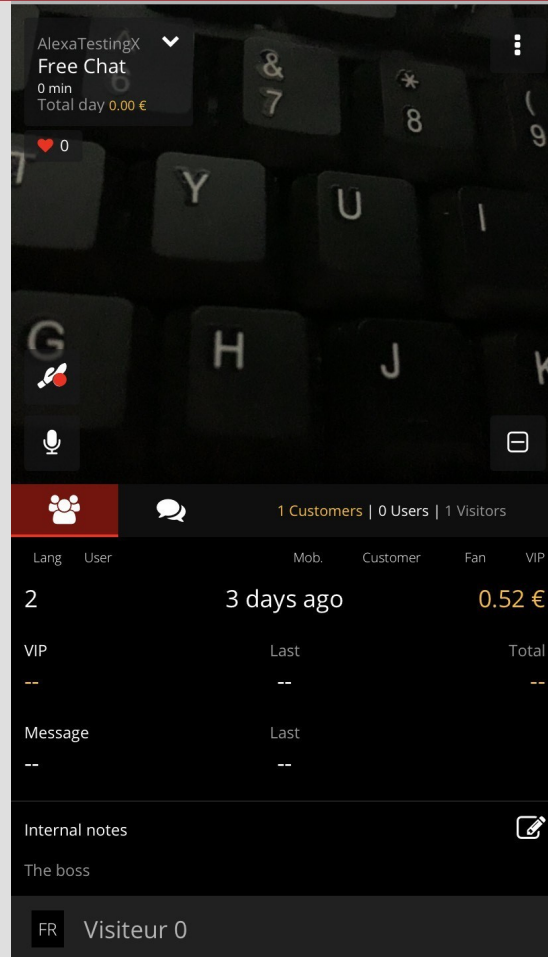

## Standard phrases :

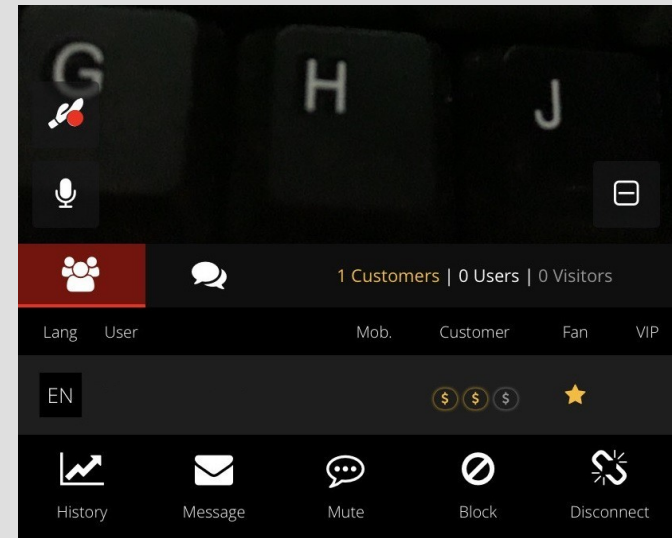

You can add directly from your Chat a standard phrase that you have created , with the mention that the automatic translation tool for your messages that you send must be disabled, to be able to send a standard phrase in the chat.

Customer monitoring directly on your chat.

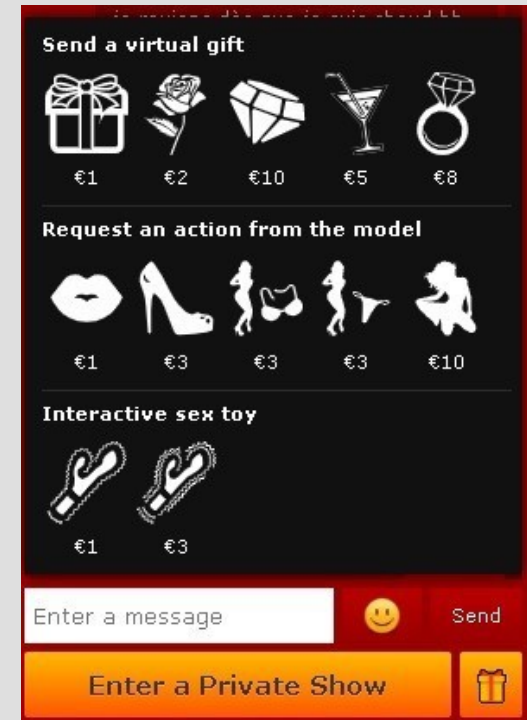

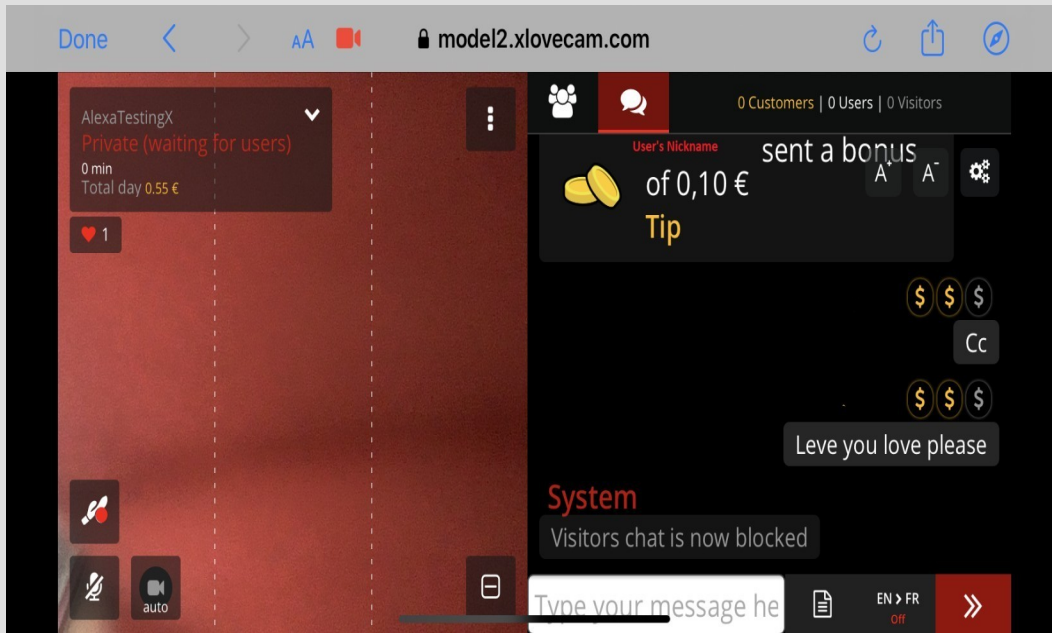

Touch on a user's nickname and You will be able to see : history (Customer monitoring) , Message him , mute him , block him, Disconnect him.

How you see when you receive a bonus :
